

Description**Comments****Pre-condition****Post-Condition****Test Objectives**

- Demonstrate the capability to populate Visit ID (PV1-19.1) with the same value for all messages included within each executed this Test Case.
- Demonstrate the capability to populate Visit Time (PV1-44.1) with the same value for all messages included within each executed this Test Case.

Evaluation Criteria

No Evaluation Criteria

Notes

This Manual Test Step has been included in this Test Case to prompt Testers for the following inspections:

- Visit ID (PV1-19.1) must be populated with the same value for all messages included in each Test Case executed to reflect the requirement in real-world installations. Test Tool does not automatically test for this requirement, so Testers must manually inspect the messages to verify that PV1-19.1 is the same for all Test Step messages for a given Visit Test Case (Urgent Care Visit, ED Visit, Inpatient Visit, Ambulatory Care Visit).
- Visit Time (PV1-44.1) must be populated with the same value for all messages included in this Test Case to reflect the requirement in real-world installations. Test Tool does not automatically test for this requirement, so Testers must manually inspect the messages to verify that Visit Time (PV1-44.1) are the same for all Test Step messages for a given Test Case.
